

A conference co-sponsored by NJ-HIMSS and Stevens

PATIENT-CENTERED E-HEALTH

Save the Date: February 3, 2010

Join us for a one-day conference in which thought leaders and innovators from the practitioner and academic communities will share their insights and debate how

- mobile clinics and telemedicine for rural and underserved populations,
- remote health monitoring and IT-enabled chronic disease management, and
- personalized Internet communications & social networks

will (or will not) help achieve the dual healthcare reform goals of lower costs and higher quality outcomes.

When? Wednesday, February 3, 2010

Where? Stevens campus in Hoboken, New Jersey

(on the Hudson River directly opposite mid-town Manhattan, accessible by PATH train or ferry, car, Newark Airport taxi/rail)

STEVENS
Institute of Technology
