

Healthcare Leadership & Management

GRADUATE CERTIFICATE PROGRAM

STEVENS
Institute of Technology

THE PROGRAM

This **4-course** graduate program presents realistic strategies in an array of critical areas for healthcare management and leadership. The courses are delivered with a hybrid method that embraces the best features of both face-to-face and on-line learning. Course content, graded assignments and class discourse are all designed to provide readily-usable systems and strategies for the everyday challenges of healthcare management and leadership.

Program Audience

Healthcare professionals who are interested in increasing their management and leadership credentials effectively, realistically and at the highest level of quality.

Admission Criteria

- Bachelor's degree with a 3.0 GPA
- Two letters of recommendation
- At least one year of progressive healthcare experience

Real-World Delivery

The courses consist of five face-to-face sessions with the rest of the sessions delivered on-line. The four courses comprise the total 12 credit Graduate Certificate in Healthcare Management.

The courses in this series are graduate courses, which can be applied to this graduate certificate or Masters-level programs and can be applied as "post Masters" credits. The completion of the certificate can be applied as the concentration in several graduate degrees offered by Stevens.

The cost for each course may be eligible for tuition reimbursement at all major medical and healthcare organizations. Please review your organization's educational assistance policy to determine your eligibility and approval process.

THE CURRICULUM

Required Courses:

Mgt 616 Healthcare Management & Leadership Provides practical strategies in healthcare management that are field-proven, practically applicable and academically sound. Topics include:
